

The LIGHTHOUSE PROJECT

Lighthouse

The Lighthouse Project is a small charity and the launch of its Payroll Giving scheme benefits the organisation directly. Nearly all employees make a contribution to the charity they work for through Payroll Giving, although additional good causes are also supported. The scheme has had a positive impact on company morale, with nearly a third of staff signing up in the first two months. Payroll Giving has proven to be a very important source and effective of unrestricted income to The Lighthouse Project.
