

Henderson Group

Henderson's GAYE scheme has been in place for some 20 years and has evolved into over 42% (931 employees) donating to a wide range of local, National and worldwide charities.

With the Group's limited growth over the past year, and with a 48% turnover of employees, we have managed to increase employee participation by 23% this year. Promotions are ongoing to ensure all staff are aware of the scheme and events and we give fundraisers Payroll Giving in Action good access to new stores and staff. Henderson also price match 100% and pay the Charitable Giving administration charges.

John Agnew, Chairman said, "The Scheme has stimulated interest in worthwhile causes and a real concern for others. We will continue to encourage this, not only that those in need will benefit, but that the givers will experience the joy of giving. The Bible says that 'God loves a cheerful giver'."
