

## Police Service of Northern Ireland

Our scheme has been running for over 8 years and has continued to grow every year. There are currently 2,891 people donating with an annual value of over £241,000. Our experience with the scheme and with our agents Payroll Giving in Action has been tremendous and our relationship has continued to grow. We have helped them expand the scheme and they have helped us with other charitable causes like the Charity of the year and the Cancer Support Association. Our vision is to assist and be as innovative as possible to continue to grow and develop the scheme.

**Assistant Chief Constable Duncan McCausland**, said “PSNI is well known for its support to charities and we often support single charities through service-wide initiatives. However officers and staff also very generously support a wide range of different charities on an ongoing basis. We encourage all staff to support charitable giving, whether through Payroll Giving or other initiatives.”
