

Home Retail Group

Payroll Giving within Home Retail Group (previously GUS), has run since the inception of Payroll Giving in 1987, and is possibly now the largest Payroll Giving scheme in the retail sector. Looking to the future, we will aim to continue the collaboration of working with our partners, Hands On Helping Charity and Charities Trust, to grow Payroll Giving.

Payroll Giving is one of the few revenue streams which allow charities to use unrestricted funds to underpin their commitment to the communities they assist. The legacy this has is probably better than any other regular direct donation to charity, and this is another reason Home Retail Group promotes and encourages employees to consider this way of giving.
